

# Post Production Training Program

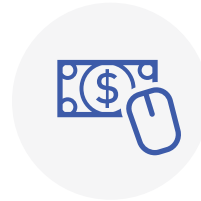

careers  
businesses  
neighborhoods

The **Made in NY Post Production Training Program** supports the growth of New York City-based post production businesses by training New Yorkers for entry-level positions in animation, editing, motion graphics, and visual effects.

▶ Participants receive up to five weeks of industry-informed training in post production, as well as photo and video editing software programs.

▶ Next, they receive 280 hours of on-the-job training that meets the needs of local post production companies.

▶ We reimburse businesses for 80% of new hire wages during their first 280 hours of training.

---

## Qualifications

- Be a local New York City-based post production business
- Have a current hiring need for positions with a minimum of 30 hours per week
- Have open positions that meet wage requirements of at least \$15 per hour without supplemental benefits (hourly wage should not exceed \$25 per hour)
- Have a clear need to train employees on the job during typical onboarding process
- Have the organizational ability to hire the participant and manage the administrative work associated with training plan development, contract execution, and trainee wage reimbursement
- Must meet other requirements to contract with the City
